Part-No.: WM2010

Base license WIN MAG plus alarm management software including 500 data points and dongle for USB Port.
This standard license is for enabling the standard package/demo version as unlimited visualisation software on server workstations and on clients in the network.
1 Client and 500 data points are included.
To connect panels to server workstations, further licenses are required (see WM3010 - WM4160, WM5100-WM5800l.

[i] Of course, you can test the WINMAG V6 software in advance without a dongle or license option. After you have downloaded the software package „WINMAGplus program package" from our homepage and installed it on your PC, the software is available to you in demo mode with all trades but limited to 15 data points for an unlimited period of time. Please note that the software is stored in the protected area. For login you need a password, which you will receive after registration.

Dongle for USB port.
